**Group Name:** \_\_\_\_\_

**Group Topic:** \_\_\_\_\_

**Task Description:** Students will work together in assigned teams to create a video project that details a specific trend in technology. The video should include appropriate photographs, video, music, voice and other visual aids. The final project should be saved in a Full Quality QuickTime movie format.

## **Answer the following in your video:**

- Clearly define your topic - What is this video about?
- Why is this topic important?
- A brief history of the trend.
- Some current exciting things happening with this technology.
- How this tech is affecting other areas of life.
- What predictions of the future of this technology there might be.
- Any other fantastic thoughts

## **Consider these as well:**

- Each team member should contribute to the project.
- You should have a solid plan before taking any video.
- You will not have a ton of time to work together in person, so how will you complete this project? Plan out your master putting together piece.
- Spelling and grammar are important in video.
- Use transitions VERY sparingly. Remember, great videos are remembered for their quality and ability to get a point across.

**Questions or Needs** - if your group has questions or needs, please list them here so that we can discuss them individually or in class.
